**UNITED STATES DISTRICT COURT FOR THE DISTRICT OF NEVADA**  
**UNITED STATES V. TRAVIUNTA WOODS, 2:12CR00187**

---

**SUMMARY IN SUPPORT OF PETITION FOR WARRANT**  
**January 10, 2022**

---

Woods was initially sentenced to 100 months imprisonment to be followed by 48 months supervised release following his conviction for Distribution of a Controlled Substance and Felon in Possession of a Firearm (2 counts). On September 28, 2021, supervision was revoked due to violations including use of controlled substances, failure to submit monthly reports, failure to report change of residence or employment, associating with criminals, failure to attend substance abuse treatment, and failure to complete community service. Supervision was revoked and he was sentenced to 30 days custody followed by 24 months supervised release. He was also ordered to participate and complete the C.A.R.E. Program, residential re-entry center (RRC), no contact with gang members, mental health and substance abuse treatment, and search and seizure. Woods commenced his second term of supervised release on November 2, 2021, in the District of Nevada.

Woods was placed into the RRC at the onset of his supervision, and he entered treatment in the C.A.R.E. Program. As noted in this petition, Woods began violating the rules of the RRC shortly after his arrival there. The RRC attempted to work with Woods in explaining the rules and procedures they have in place and Woods continued to violate the program rules. Each time Woods was addressed with the violations he was prompted to not violate any further. As noted in his signatures in some of the incident reports by signing "LOL", he did not appear to take the rules seriously. The RRC staff attempted to work with Woods until he was told after his incident reports on December 25, 2021, that if he had any further incident reports he would be removed from the facility as a program failure. Woods met with the undersigned officer in the probation office to address this issue on December 29, 2021 and admitted verbally he had failed to follow the rules, but he thought they were "minimal and stupid". At that time Woods agreed to modify his conditions to include 50 hours of community service; however, he was informed that if he continued to break the rules at the RRC then the Court would be notified with a request for warrant to initiate revocation proceedings. Before a modification request could be filed with the Court, on January 2, 2022, Woods again broke the rules of the RRC regarding smoking where prohibited. Because of this and all the other rule violations, the RRC is removing Woods as a program failure and a request to the Court to revoke supervision is being requested instead of community service.

Woods is participating in the C.A.R.E. Program through a modified schedule due to a reduced number of participants currently. To his credit, he has not tested positive for drugs or alcohol since being in the C.A.R.E. Program; however, as noted in this petition, he has missed a total of eight (8) drug tests and failed to submit to one test as required when he stalled. The reason Woods missed so many tests in just over two months cannot be logically justified since he has been unemployed and the only two things he has been required to do is attend and participate in

treatment and submit to drug tests. He has no other excusable reason to not submit to testing since the RRC provides a bus pass for him to have adequate transportation to and from the testing site. Wood's failure to submit to drug testing is considered a refusal to submit to drug testing as a condition of supervision.

Due to Woods unwillingness to abide by the conditions set forth by the Court, failure to follow the rules of the RRC, and his lack of desire to follow the rules to complete programming, it is respectfully requested a warrant be issued to initiate revocation proceedings and that he be detained pending revocation proceedings.

Respectfully submitted,
